 - One jet ski three seater – Yamaha Waterrunner 210HP-4stroke
 - Snorkeling Equipment, water skis, fishing gear
 - One Banana and two tubes
 - Windsurf (on request)
 - Full scuba equipment with air Compressor (on request)

Iraklis L

Many yachts claim to be unique but very few fulfil this description with convincing sincerity. It is just possible that all avenues have been fully exploited, although the recent launch of the custom 35,5 metre motor sailing schooner «Iraklis L» from the Onar Shipping Company in Greece proves that an established, classic design can be successfully reinvented.

With her union of traditional greek schooner heritage blended sympathetically with modern superyacht standards of luxury, there is an irresistible visual appeal: the sharply raked stem, the heavily flared bow with a dominant bowsprit and stainless steel dolphin striker and elegant sheerline create an atmosphere of romance and adventure. This is further enhanced at night by the spreader and side deck downlighters, and by strings of lights fitted along the scupper space between the bulwarks and the hull, that turn the yacht into a glittering jewel....

...Even for a casual observer, it is clear that Onar Shipping has produced a masterpiece and it is no coincidence that Onar is Ancient Greek for 'dream'.
